Korrekturheft

Hinweise zur Korrektur

Bei der Korrektur werden **ausschließlich die Antworten auf dem Antwortblatt** berücksichtigt.

Korrektur der Aufgaben

Bitte kreuzen Sie bei jeder Frage im Bereich mit dem Hinweis „*von der Lehrperson auszufüllen*“ an, ob die Kandidatin/der Kandidat die Frage richtig oder falsch beantwortet hat.

Falls Sie versehentlich das falsche Kästchen markieren, malen Sie es bitte vollständig aus (■) und kreuzen das richtige an (☒).

richtig	falsch
<input type="checkbox"/>	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<input type="checkbox"/>

Gibt eine Kandidatin/ein Kandidat bei einer Frage zwei Antworten an und ist eine davon falsch, so ist die gesamte Antwort als falsch zu werten. Bei den Testmethoden *Kurzantworten* und *Richtig/Falsch mit Begründung* zählen alle Wörter, die nicht durchgestrichen sind, zur Antwort.

Bei der Beurteilung werden nur ganze Punkte vergeben. Die Vergabe von halben Punkten ist unzulässig.

Akzeptierte Antworten bei der Testmethode Richtig/Falsch mit Begründung

Die Testmethode *Richtig/Falsch mit Begründung* sieht vor, dass für die Erreichung eines Punktes zwei Bedingungen erfüllt sein müssen:

1. Die Entscheidung, ob die jeweilige Aussage richtig oder falsch ist, muss korrekt sein.
2. Als „Begründung“ sind die ersten 4 Wörter jenes Satzes zu zitieren, der die Entscheidung belegt.

Das BIFIE empfiehlt im Sinne der Kandidatinnen und Kandidaten, Abweichungen von der Regel der ersten vier Wörter zu akzeptieren, wenn zweifelsfrei erkennbar ist, dass auf den die Entscheidung begründenden Satz Bezug genommen wurde (etwa, wenn 4 Wörter innerhalb des Satzes oder der ganze Satz zitiert werden).

Akzeptierte Antworten bei der Testmethode Kurzantworten

Das Ziel der Aufgaben ist es, das Hör- bzw. Leseverständnis der Kandidatinnen und Kandidaten zu überprüfen. Grammatik- und Rechtschreibfehler werden bei der Korrektur nicht berücksichtigt, sofern sie die Kommunikation nicht verhindern. Es sind nur Antworten mit maximal 4 Wörtern zu akzeptieren.

Standardisierte Korrektur

Um die Verlässlichkeit der Testergebnisse österreichweit garantieren zu können, ist eine Standardisierung der Korrektur unerlässlich.

Die Antworten Ihrer Kandidatinnen und Kandidaten sind vielleicht auch dann richtig, wenn sie nicht im Lösungsschlüssel aufscheinen. Falls Ihre Kandidatinnen und Kandidaten Antworten geben, die nicht eindeutig als richtig oder falsch einzuordnen sind, wenden Sie sich bitte an unser Team aus Muttersprachlerinnen und Muttersprachlern sowie Testexpertinnen und Testexperten, das Sie über den Online-Helpdesk bzw. die telefonische Korrekturhotline erreichen. Die Rückmeldungen der Fachteams haben ausschließlich beratende und unterstützende Funktion. Die Letztentscheidung bezüglich der Korrektheit einer Antwort liegt ausschließlich bei der beurteilenden Lehrkraft.

Online-Helpdesk

Ab dem Zeitpunkt der Veröffentlichung der Lösungen können Sie unter <http://bestellung.srdp.at/helpdesk> Anfragen an den Online-Helpdesk des BMB stellen. Beim Online-Helpdesk handelt es sich um ein Formular, mit dessen Hilfe Sie Antworten von Kandidatinnen und Kandidaten, die nicht im Lösungsschlüssel enthalten sind, an das BMB senden können. Sie brauchen zur Benutzung des Helpdesks kein Passwort. Sie erhalten von uns zeitnah eine Empfehlung darüber, ob die Antworten als richtig oder falsch zu bewerten sind. Sie können den Helpdesk bis zum unten angegebenen Eingabeschluss jederzeit und beliebig oft in Anspruch nehmen, wobei Sie nach jeder Anfrage eine Bestätigung per E-Mail erhalten. Jede Anfrage wird garantiert von uns beantwortet. Die Antwort-E-Mails werden zum unten angegebenen Zeitpunkt zeitgleich an alle Lehrer/innen versendet.

Anleitungen zur Verwendung des Helpdesks für AHS und BHS finden Sie unter:

- http://bestellung.srdp.at/Anleitung_Helpdesk_AHS.pdf (AHS)
- http://bestellung.srdp.at/Anleitung_Helpdesk_BHS.pdf (BHS)

Begründungen

0

The text says: "Born as a low-cost product for the masses, this utilitarian scooter became a style statement in itself [...]" Therefore, at its beginning, the Vespa was created to be affordable by many people.

1

The text says: "Called Vespa, its concept and name were the fruit of Enrico Piaggio's intuition, while its structure took shape on the design table of Corradino D'Ascanio, aeroplane and helicopter engineer." Therefore, the Vespa was developed by an aircraft expert.

2

The text says: "Vespa would very soon become a myth: a myth constructed on over 15 million scooters produced and sold throughout the world, which have served not only to motorise entire countries, but also to unite people of diverse languages and cultures." Therefore, the Vespa turned into a legend because it has become globally successful.

3

The text says: "At first it was green and not wondrously beautiful, a symbol of transformation from war to peace. Then it became white and elegant, a product that imposed the *stile italiano*: from necessity to style, the recipe for the good life. Then it dressed itself in silver and was transformed into a myth of elegance, youth and adventure." Therefore, the colours of the Vespa reflected the atmosphere of the time.

4

The text says: "effective mass advertising campaigns were invented, like the one based on the slogan 'Vespizzatevi' (Vespa yourselves!) Piaggio also succeeded in creating a spontaneous customer organisation: Vespa Clubs, for example, with their own magazines and facilities." Therefore, marketing for the Vespa was well-planned and carried out.

5

The text says: "The Vespa had been consecrated as a recognisable symbol of Italian-ness: joyful, popular, uninhibited." Therefore, the Vespa is well-liked because it represents its home country's culture.

6

The text says: "[...] the Vespa, initially presented as solid (it is still made of metal), long-lasting and adventurous, appealed to pioneers during the '40s and '50s. In the '60s it reflected the Italy of change, of pleasure-seeking children, and was transformed into a toy with real performance, expressing novelty, modernity and anti-conformism. In the '70s and '80s it turned into an object of nostalgia; and in this decade, with technological innovations and the 1996 launch of the sleek new Vespa ET2 and ET4, it has become revolutionary, riding with all its appeal intact into the third millennium." Therefore, throughout the decades, the vehicle has adapted to cultural changes.

2 Where to go when you want to unplug

Begründungen

0

Text A contains the answer: "Offering yoga, cooking and artistic-themed retreats, this retreat is especially good for creative professionals or anyone on the verge of burnout who wishes to explore their artistic side." Tassajara Zen Mountain Center, California, is therefore ideal if you want to use your imagination.

1

Text C contains the answer: "Outward Bound's canoe camping trip in Minnesota's BWCAW North Country offers a million acres of gin-clear lakes, cascading waterfalls and rocky cliffs and is ideal for those who feel out of touch with nature or constrained by urban life." Outward Bound, Minnesota, is therefore ideal if you are a city resident missing the countryside.

2

Text E contains the answer: "Just like the monks, guests at all levels of retreats are assigned work, asked to observe periods of silence and share their vegetarian meals." Mepkin Abbey, South Carolina, is therefore ideal if you accept that you will be given jobs to do alongside your hosts.

3

Text D contains the answer: "Amangiri and most other properties owned by Amanresorts are in 'accessibly remote' locations, often a one- to two-hour drive from a major city or airport." Amangiri, Utah, is therefore ideal if you want to be close enough to urban areas.

4+5

Text A contains the answer: "Offering yoga, cooking and artistic-themed retreats, this retreat is especially good for creative professionals or anyone on the verge of burnout who wishes to explore their artistic side." Tassajara Zen Mountain Center, California, is therefore ideal if you feel emotionally exhausted.

Text C contains the answer: "Outward Bound offers a roster of packages for nature-orientated adults or those suffering from burnout or a traumatic life event such as divorce or death of a loved one." Outward Bound, Minnesota, is therefore ideal if you feel emotionally exhausted.

6

Text D contains the answer: "'We meet our guests where they are,' says Amangiri's general manager Nicholas Gold. 'If they require connectivity, we accommodate; if they wish to switch off, we facilitate this also.'" Amangiri, Utah, is therefore ideal if you want electronic services to suit individual needs.

7+8

Text B contains the answer: "All sailings are free of TV, phones and computers, except what the Coast Guard requires for the crew." Maine Schooner Stephen Taber, Maine, is therefore ideal if you think that mobiles should be used by staff only.

Text C contains the answer: "All Outward Bound excursions explicitly prohibit iPads, computers and cell phones, except for instructors' emergency communication devices." Outward Bound, Minnesota, is therefore ideal if you think that mobiles should be used by staff only.

9

Text D contains the answer: "The company's founder Adrian Zecha has a knack for finding scenic locales and bringing the best of the area to the resort's property, so guests never have to leave the property." Amangiri, Utah, is therefore ideal if you want top quality from the region without having to travel around.

10

Text A contains the answer: "It encourages visitors to use Zen Buddhist meditation principles, described by some guests as 'Japanese-esque', as well as the wisdom of the native Esselen people, who lived among the mountains and the purportedly curative hot springs for centuries." Tassajara Zen Mountain Center, California, is therefore ideal if you are interested in the insights of earlier inhabitants.

Begründungen

0

The text says: "They said people have to order their meal by number. But I said no, you have to go through the line and select your ingredients." Therefore, Eils disliked the idea of his guests choosing the food by number.

1

The text says: "And everyone gave me grief over the name: Nobody'll be able to pronounce it!" Therefore, Eils's colleagues thought people would find it difficult to pronounce Chipotle.

2

According to the text, Eils "had long dreamt of running his own gourmet restaurant but needed to generate fast cash." Therefore, to make his wish come true, Eils had to generate fast cash.

3

The text says: "And it didn't take long before there was a line of people waiting to get in! So I thought, maybe I'll open just one more." Therefore, after his first success, Eils felt he might as well open just one more.

4

According to the text, the "second [restaurant] was funded with the profits and the third with a Small Business Administration loan." Therefore, after investing his own earnings, Eils was given a Small Business Administration loan.

5

The text says: "By the time Eils had a dozen restaurants, he'd given up on the idea of a single high-end one." Therefore, Eils stopped dreaming about an individual gourmet place after setting up a dozen restaurants.

6

According to the text, Ells “got the money for expansion from a surprising source, McDonald’s, first as a minority investor and then three years later as the majority shareholder.” Therefore, Ells’s business partner increased investment to become the majority shareholder.

7

According to the text, Ells “just keeps adding more organic produce from more sustainable resources.” Therefore, Ells has increased the use of organic produce.

4 Of mice and Manet

0	1	2	3	4	5	6	7	8	9
/	K	A	F	B	H	L	D	J	C

Begründungen

0

The first part of the first paragraph is about the general, daily use of mice in scientific research. The text says: “Every day, in laboratories around the world, the little critters are subjected to all manner of carefully controlled insults, from electric shocks to the induction of cancer, all in the name of research.”

1

The second part of the first paragraph indicates that conditions for Dr Watanabe’s experimental mice differ from the norm previously described. The text says: “But the mice in the lab of Shigeru Watanabe, a psychologist at Keio University in Japan, have a more enjoyable life than most.”

2

The second paragraph describes the details of Dr Watanabe’s experiment, in which he investigated whether mice could distinguish paintings by different artists. The text says: “As he describes in a paper published this month in the *Public Library of Science*, Dr Watanabe was curious to see whether his mice had a preference for certain painters.”

3

This passage is about how Dr. Watanabe measured the effect of the paintings on mice. The text says: “Since science lacks (as yet) a way to read mouse minds, he measured how long the animals remained near one or other of the pictures.”

4

This paragraph describes what happened when morphine and an inactive saline solution were given to the mice. The text says: “But things got more interesting when Dr Watanabe added morphine to the mix. The mice were injected with the drug when viewing one picture, and with an inactive saline solution when viewing another.”

5

The passage continues with the effect of the morphine high, which the mice eventually associated with one painting and remained close to this painting for a longer time. The text says: “After a few repetitions, they began to associate one of the paintings with the morphine high, and would spend longer standing next to it.”

6

This paragraph gives details of Dr Watanabe’s second finding, that mice are able to appreciate the individual style of artists. The text says: “When they were shown a number of paintings by a single artist after being given morphine, they showed a preference for other works by the same artist that they had never seen before.”

7

This sentence refers to another experiment producing a similar result with a different incentive. The text says: "A similar result was obtained with an experiment that used milk, rather than drugs, as the reward."

8

This paragraph gives examples of birds being able to distinguish between different painting styles. The text says: "He has previously shown that Java sparrows are able to distinguish cubist paintings from impressionist and Japanese ones, and that pigeons can tell a Chagall from a Van Gogh, as well as discriminate between the Japanese school and the impressionist."

9

This passage compares the respective roles of the senses in birds and mice. Dr Watanabe's results are surprising for mice, which are thought to depend on smell and touch, but not surprising for birds. The text says: "Dr Watanabe's latest results are surprising in that, though birds are known to have excellent eyesight, mice are thought to rely much more heavily on smell and touch to make their way in the world."
